

BUCKET TOSS

OBJECT OF THE GAME:

Fill up your bucket as quickly as possible!

WHAT YOU'LL NEED:

- 1 bucket per player, plus one
- 1 kiddie pool

INSTRUCTIONS:

Setup: Fill a kiddie pool at one end of your playing area. Place an empty bucket at the other end. Space players in a line between the two and give each player a bucket.

Playing the Game: On "go," the first player in the line will fill their bucket from the kiddie pool, then toss the water in their bucket to the next player in line. Player 2 will catch as much water in their bucket as they can. Repeat the process down the line, trying to fill the empty bucket at the end.

Tip: Split larger groups into teams and race!
