

GLOWING TWIST-UP

OBJECT OF THE GAME:

Reach all of the squares without falling!

WHAT YOU'LL NEED:

- 1 old white sheet
- Masking tape
- Glow paint (multiple colors) & paint brush
- Cardstock, 1 brad, marker, scissors

INSTRUCTIONS:

Setup: Using masking tape, outline evenly spaced squares about 8" each on an old sheet (4 columns of 5 squares) and paint them with different colors of glow paint. Then, create a spinner using cardstock, paint, 1 brad, and markers (see example right.)

Playing the Game: The referee will spin the arrow and call out that body part and color. Each player will try to place that body part on a vacant square of that color. The last one standing, wins!
