

Interested in Research?

The Office of Medical Student Research (OMSR) Lunch and Learn Series presents perspectives and benefits of being a physician-scientist from OSU-COM alums.

September 14 at 12:00 PM

Benjamin Greiner, DO

University of Texas Medical Branch at Galveston

Dr. Greiner completed his MPH while in medical school and was involved in health disparities research with Dr. Hartwell. He is currently an Internal Medicine resident at UTMB and involved in research projects focused on asthma, allergies, and COVID-19 vaccines.

October 11th at 12:00 PM

Trevor Torgerson, DO

Duke

Dr. Torgerson worked with Dr. Vassar on multiple projects and has been published in many high-ranking journals including JAMA Internal Medicine. Dr. Torgerson is an ENT resident at Duke Department of Head and Neck Surgery and is continuing research in Infodemiology.

November 15th at 12:00 PM

Julie Ledgerwood, DO

NIH

Dr. Ledgerwood, an OSU-COM alum, completed medical residency in internal medicine at Johns Hopkins Bayview Medical. She has served as chief of the Clinical Trials Program at the Vaccine Research Center of the National Institute of Allergy and Infectious Diseases and worked on the COVID-19 vaccine development.

All Lunch & Learns presented on Zoom. Look for RSVPs on OSU-COM and CHS social media pages prior to event. Recorded lectures will be uploaded to OSU-CHS YouTube page under the OMSR Playlist. **Email:** medstudentresearch@okstate.edu to find out about more ways to get involved.
